### Features

With one wire for the USB hub and a separate one for the keyboard, the ASTRA2 series is ideal for editing systems that use USB KVM extenders, and installations that require data security.

- Backlit keys for enhanced contrast and readability
- Dimmable backlight with five selectable levels. 100/80/60/40/20
- Built-in dual USB ports
- Scissor switch keys for lighter, quieter keystrokes
- Innovative design suits any desk or workstation
- Fine craftsmanship using only the best materials
- Colour-coded, labeled shortcut keys with graphical commands
- Compatible with Mac OS 10.6 and later versions

The dedicated LogicKeyboard makes controlling AVID Pro Tools a lot simpler and faster. It is ideal for post-production facilities, professional video editing houses and anyone else who requires all the custom key commands to readily accessible from a dedicated, clearly labeled, colour-coded keyboard. Using this keyboard is also a great

way to learn the AVID Pro Tools key commands. And since the AVID Pro Tools dedicated keyboard also features all the regular letter, number, and symbol labelling that you will find on a conventional keyboard, it can simply be used as a substitute for it. Easy to set up and use. No software required. Soft touch keystroke - Ideal for all day comfort.
