- Innovative design suits any desk or workstation
- Fine craftsmanship using only the best materials
- Color-coded, labeled shortcut keys with graphical commands
- Compatible with Windows 2000, XP, Vista, 7/8/10

Backlit Keyboard - The ASTRA2 Series

You'll never be left in the dark with the new ASTRA2 series, the next-generation backlit keyboard that's packed with extras! No more struggling to see your keyboard while editing in a dark room - the ASTRA2 keyboard offers five selectable light levels,

making it the perfect choice for any lighting environment. The ASTRA2 series is optimal from day to night, bright room or dim, with just a tap of your finger.

With one wire for the USB hub and a separate one for the keyboard, the ASTRA2 series is ideal for editing systems that use USB KVM extenders, and installations that require data security.

The dedicated LogicKeyboard makes controlling Avid Pro Tools a lot simpler and faster. It is ideal for post-production facilities, professional video editing houses and anyone else who requires all the custom key commands to readily accessible from a dedicated, clearly labeled, colour-coded keyboard. Using this keyboard is also a great way to learn the Avid Pro Tools key commands. And since the Avid Pro Tools dedicated keyboard also features all the regular letter, number, and symbol labelling that you will find on a conventional keyboard, it can simply be used as a substitute for it. Easy to set up and use. No software required. Soft touch keystroke - Ideal for all day comfort.
