The ASTRA 2 backlit keyboard features an elegant, gray keyboard with low-profile

^{*}The actual speed of the USB hub can vary depending on devices connected.

scissor-switch keys for a light, yet responsive feel. With five selectable light levels, the ASTRA 2 is the perfect choice for any lighting conditions. The keyboard features a USB 3.0* hub to enable you to connect e.g. mouse, phone, contour shuttle or a USB-dongle.

The ASTRA 2 keyboard is developed with two USB cables; a grey one for the keyboard itself, and a black one for the USB hub to avoid problems with installations, that require a KVM extender.

In addition, the ASTRA 2 has a full-sized F-row and multimedia keys to provide full control and effectiveness.

To power the keyboard, you need to plug in the grey USB connector. If you need to activate the USB hub, on the back of the keyboard, plug in the black USB connector

*The actual speed of the USB hub can vary depending on devices connected.
