Features

You'll never be left in the dark with the new ASTRA2 series, the next-generation backlit keyboard that's packed with extras. No more struggling to see your keyboard while editing in a dark room - the ASTRA2 keyboard offers five selectable light levels, making it the perfect choice for any lighting environment. The ASTRA2 series is optimal from day to night, bright room or dim, with just a tap of your finger.

With one wire for the USB hub and a separate one for the keyboard, the ASTRA2 series is ideal for editing systems that use USB KVM extenders, and installations that require data security.

Easy to set up and use. No software required. Soft touch keystroke - Ideal for all day comfort.

- Backlit keys for enhanced contrast and readability
- Dimmable backlight with five selectable levels. 100/80/60/40/20
- Built-in dual USB ports

- Scissor switch keys for lighter, quieter keystrokes
 - Innovative design suits any desk or workstation
 - Fine craftsmanship using only the best materials
 - Color-coded, labeled shortcut keys with graphical commands
 - Compatible with Mac OS 10.6 and later versions
