

Lumens OIP-D50D

ProdCode: LUMOIPD50D

4K 1G Decoder

[Download Images] (.zip file)

Features

- Delivers 4K@30Hz 4:4:4 pristine video quality with ultra-low latency
- Long-distance IP-based A/V transmission
- Video wall deployment with portrait and landscape orientation
- Intuitive Web-based GUI for AV distribution and control (*with [OIP-D50C](#))
- Supports PoE for easy installation
- Cost-effective A/V distribution solution
- 5 Year Warranty

High Quality with Ultra-Low Latency

The OIP-D50E / OIP-D50D delivers 4K@30Hz 4:4:4 pristine video quality with ultra-low latency. Powerful visually lossless compression technology enables reduced 4K video size without losing video quality at fast speed.

Long-Distance IP-based A/V Transmission

The [OIP-D50E](#) / [OIP-D50D](#) bridges the video sources and digital displays over the

standard 1Gbps network. The OIP solution can transmit videos over a long distance and arbitrarily adjust the number of endpoint devices without an extra network switcher.

User-Friendly Web GUI

Intuitive web-based GUI allows users to preview the video source and quickly deploy video sources to displays or video walls in real-time via laptops, tablets, or mobile phones. (*with [OIP-D50C](#))

Video Wall Deployment

With portrait and landscape orientation, you can create your desired video wall shapes that provide your audience an ultimate visual experience.

PoE (Power over Ethernet)

The PoE-equipped Gigabit Ethernet switches can remotely power encoders, decoders, and controllers while at the same time transmit audio, video, and a control signal.

Applications

Sports Bar, Casino, Control Room, Sports Arena.

Need Further Support?

If you have any questions or require additional support regarding this product release, please do not hesitate to contact us. Our team is here to assist you with any inquiries or provide further information or marketing collateral as needed.
