

Lumens VC-A71P-HN

ProdCode: LUMVCA71HNW

4K NDI PTZ Camera with NDI High Bandwidth and NDI HX3 - White

[\[Download Images\]](#) (.zip file)

Features

- 4K NDI PTZ Camera with NDI High Bandwidth and NDI HX3
- 4K 60 fps, 30x Optical Zoom, 1/1.8" Sensor
- HDMI / 3G-SDI / 12G-SDI / IP / USB
- Genlock Support
- Rec.709 / BT.2020 Support
- NDI High Bandwidth / NDI HX2 / NDI HX3 / RTSP / RTMP / RTMPS / MPEG-TS / SRT Support
- FreeD Protocol for Live VR/AR Production
- 802.1x Support

NDI High Bandwidth

Featuring NDI High Bandwidth, VC-A71P-HN delivers high-quality video over IP networks with ultra-low latency. Visually lossless, the I-Frame NDI codec is suitable for use in high-end video and TV production, live events and studios.

NDI HX3 Technology

VC-A71P-HN supports the latest version of the NDI protocol, NDI HX3. It delivers high-quality video with very low latency and connects directly to NDI networks. VC-A71P-HN outputs NDI HX3 and NDI High Bandwidth output simultaneously.

Broadcast Connections

VC-A71P-HN is equipped with dual SDI ports (12G and 3G) and a genlock connector to synchronize broadcast equipment. The camera can be powered over the Ethernet (PoE++); the network port can also be used for SRT and MPEG- TS output, as well as standard webstreaming protocols.

BT.2020 / Rec.709

Lumens VC-A71P-HN supports the BT.2020 colour gamut for wide and precise colour reproduction. With BT.2020, VC-A71P-HN can be matched with other cameras and deliver video output optimized for new generation UltraHD monitors.

Need Further Support?

If you have any questions or require additional support regarding this product release, please do not hesitate to contact us. Our team is here to assist you with any inquiries or provide further information or marketing collateral as needed.
