The Fashion Strap is the O-R-I-G-I-N-A-L neoprene strap and has been an industry staple for decades.

It's since been upgraded to the 2.0 version and still is the preferred camera carry choice of many.

The neoprene is bonded on both sides with top-quality nylon for added strength and a controlled stretch. This weight-reduction system makes cameras feel 50% lighter and 100% more comfortable. Offered in two versions for different connection options.
