Neoprene wrist strap with 1.5mm Mini QD Loop connector. Rec load 1.33kg. Length 11"

[\[Download Images\] \(.zip file\)](#)

### Features

- Ideal wrist strap for mirrorless and other small SLR cameras
- Comfortable neoprene pad
- Plastic slide for a secure fit
- Fits tight connection areas with a 1.5mm cord
- If your camera has lugs designed for split rings, use a split ring to stop sharp parts cutting cord
- Ideal Max. Load: 1.33kg (for comfort reasons, not maximum capacity of cord)
- Connection Type: 3/8" Mini QD Loop - 1.5mm cord loop
- Strap Length : 27.9cm (11")
- Quick Disconnects: Yes
- Materials: Neoprene pad, nylon cord loop and leather tab

The Mirrorless Wrist Strap is the perfect solution for carrying cameras that are larger than a point-and-shoot camera, but smaller than a full-size DSLR.

The pad is made from soft, yet durable neoprene with a slide that tightens the strap

snugly around the wrist for security and comfort. This keeps the camera always at the ready and close in your grip. It also gives you the added peace of mind that if you need your hands free, you can simply let go of the camera and it's securely attached around your wrist.

Keeping gear conveniently at hand while also guarding its security is a must for the active photographer on the go!
