ProdCode: OPTE8356

Neoprene sling with 1 or 2 Uni-Loop connectors. Rec load 6.8kg. Length 25-36"

[\[Download Images\]](#) (.zip file)

Features

- Comfortably carry equipment for extended periods with the control-stretch system and Lycra binding
- Evenly distributes weight with its curved neoprene pad
- Non-skid surface keeps the strap securely on your shoulder
- Attaches to strap connection points on camera body, no stress on your camera housing or lens mount
- Leaves the tripod mount free for use
- Convertible to right shoulder use with the addition of the System Connectors - Gender Changers

The Utility Strap Sling XL Quick Adjust offers quick access to your camera while maintaining the security of a strap worn across the shoulder. It comes with two of OP/TECH USA's Uni-Loop Connectors and offers all the great features of the regular (non-XL) version but adjusts to hold gear up to 13cm (5") lower.

The Quick-Adjust feature allows the sling to be cinched to any length with just a tug on the webbing loop. This is especially handy when gear needs to be kept close to the

body in rough terrain or in large crowds. To lengthen the sling, simply lift the buckle with a single finger and pull down the camera with the other hand: Quick and easy!
