- Lens Mount: L-Mount

Create captivating content straight from the new LUMIX S9 Full-Frame camera, packed with professional features but with no editing skills needed – from shooting to posting in 30 seconds.

Compact appearance, large sensor

The LUMIX S9 is small and compact but packed with professional-grade features. With its full-frame sensor, this camera delivers stunning results even in low-light conditions,

allowing you to capture high-resolution videos and impressive photos with ease.

High-resolution 4K/6K videos

This camera is also ideal for creating videos. Record breathtakingly beautiful scenery and memorable moments you want to treasure in high quality in 4K/6K.

Flexible framing (Open Gate)

Capture what you need and crop what you don't. Get all the aspect ratios from one shot. If you want to edit it later, the new MP4(Lite) mode 4K video is perfect for transferring to your smartphone. Just use the LUMIX Lab app to crop it to your desired aspect ratio.

Focus on fast subjects

The Phase Hybrid autofocus ensures sharp images with both still and moving subjects. For video it guaranties your subject is always in focus, wherever in the frame.

Clear night view photos and handheld videos

Shoot handheld and get a steady shot in any situation. Powerful image stabilization keeps your footage smooth, no matter the situation.

Signature presets

The REAL TIME LUT function revolutionizes your content. You can apply cinematic looks directly in-camera, without time-consuming editing. Choose from a wide range of LUTs (signature presets) in the LUMIX Lab app or create your own personal style, to use in camera.

LUMIX Lab app

Pair the camera with your smartphone in three steps and you can transfer content to your smartphone seamlessly with ultra-fast Wi-Fi connection. You can also crop, adjust brightness, apply LUT (signature preset), etc. *From shooting to posting in 30 seconds: The total time it takes to transfer a JPEG photo or a 5-second short video shot in MP4(Lite) mode to an iOS-supported smartphone using the LUMIX LAB app, including cropping in case of video, and posting to social media. Study conducted under Panasonic standards. Results may vary depending on network environment.

Extended Battery Life

The camera comes with battery pack DMW-BLK22. You can also use the camera while powering it with a commercially available mobile battery and USB Type-C cable, ensuring it is always ready for use wherever you are.*

*Battery must be installed in camera and retain some charge for feature to work.

Extended zoom range

Crop Zoom / Hybrid Zoom extends the zoom range of both photos and videos. Hybrid Zoom is a combination of Optical Zoom and Crop Zoom. This function allows you to expand your range of expressions even if you only carry around minimal equipment.

Create emotional videos

Explore your creativity with slow and quick-motion modes to share captivating time-lapse videos.
