## 32-bit Float Recording\*

The camera delivers 32-bit float recording, improving the quality and efficiency of the entire workflow. With its wide dynamic range, the 32-bit float format records more information, from quiet to loud sounds. As a result, there is no need for tedious sound level adjustments during audio recording. Video and music can be managed in a single file, making post-production much more efficient.

\*Compatible model as of June 2024: LUMIX GH7 (DC-GH7) .
