### Features

- DJI OSMO 360 Camera Cage
- The split top-and-bottom design with one-touch quick-release mechanism allows effortless assembly and disassembly, while ensuring your camera is securely locked in place
- Crafted from premium aluminium alloy, the cage combines light weight with exceptional strength
- The cage offers precise cutouts for the ports and buttons. The bottom retains the camera's original quick-release mount and 1/4"-20 threaded socket, ensuring broad compatibility with official accessories
- The cage has a cold shoe mount on one side, a 1/4"-20 threaded socket and a strap hole on the other side, allowing various accessories to be mounted for creative shooting
- It comes with a standard silicone cover that protects the lens and camera screen when not in use, reducing the risk of daily wear and tear

PGYTECH OSMO 360 Cage is a protection and expansion accessory custom-designed for the DJI OSMO 360 action camera.

The cage features a split top-and-bottom structure with a one-touch quick-release design, enabling fast installation and removal and secure locking of the camera. Its main body is made of aluminium alloy and includes a silicone protective cover. The battery compartment, power switch, control buttons, have dedicated cutouts that ensure full accessibility while maintaining comprehensive protection and smooth camera operation. The bottom retains the camera's original quick-release interface and 1/4"-20 threaded socket.

On the side, the cage includes a cold shoe mount, a 1/4"-20 threaded socket, and a strap hole. These allow users to attach accessories for assisted shooting and meet the needs of low-center-of-gravity horizontal shooting during high-intensity activities like cycling and surfing.

### **In the box:**

- 1x Camera Cage
  - 1x Silicone Cove
-
