- Exterior Attachment
- "Z-Fold" Lay-flat Packing
- Smart Organization
- Comfy Carrying
- Top Quick Access

Take your FPV experience to the next level with the OneMo FPV Backpack! Innovative Z-fold organization allows you to easily store and retrieve your gear without having to remove your drone from the front flap. With its DIY partitions and accessory pockets on both sides, everything you need is always within reach. Plus, its scientifically-

engineered carrying system provides full support and unmatched comfort. And wide rear opening gives you total visibility and access. The backpack also comes with an explosion-proof battery bag, which enhances journey safety. What's more, the pocket of front flap can store landing pad, and the shoulder strap can store a smartphone or goggles' battery and accommodate a camera clip. With its Anti-theft YKK zipper, EVA foam joystick protector covers, and discreet AirTag pocket, you can be sure that all your equipment will stay safe and sound.

Elastic Bands Help To Carry Extra Drones

The front panel features four elastic bands, providing effortless FPV drone carrying and quick accessibility.

Z-fold Structure Enables Lay-flat Packing

Effortlessly retrieve your gear from the main compartment- no need to remove drones on the front flap.

- The underside is constructed with easy-to-clean fabric, thus only requires simple treatment when exposed to dirt or stains.

DIY Partitions Bring Personalized Storage

OneMo FPV backpack adopts a thoughtful layout to keep drones, remote controllers, batteries and FPV goggles neatly organized.

- Adjustable partitions ensure a secure fit and easy customization. (Storing Mode: Racing Drone+Tiny Whoop/ Double Racing Drones)
- Dedicated sleeve for laptop and iPad.

Accessories Securely Stored and Readily Available

- Mesh Pockets
- Elastic Bands/Straps
- Zipped Pockets
- Semi-transparent Pockets
- External Pockets
- Slip Pockets

Scientifically-engineered Carrying System

A fully adjustable carry system with chest, waist, shoulder and stabilizer straps together provides ease of movement on the go.

- Ergonomic and arc-shaped back panel.
- EVA foam holds its shape and scuba knitting fabric relieves shoulder pressure.
- Adjustable chest strap brings easy breath.
- Detachable waist strap with soft padding greatly relieves pressure.
- S-shape shoulder strap brings an easy feeling.
- Ventilation ridge reduces unwanted perspiration.
- Stabilizer strap prevents backpack from flopping around.

Quickly Grab Remote Controller Via Top Access

A top access greatly eliminates the hassle of taking your remote controller out.

Explosion-proof Battery Bag Enhances Safety

Shield batteries from extreme temperatures, fire incidents, and potential explosions.

Anti-theft YKK Zipper Denies Unauthorized Access

Splash-proof Material Keep the Elements Out

Experience unmatched gear protection on all your flying adventures with our high-performance PU-coated backpack.

Other Features

- Discreet AirTag pocket brings added peace of mind.
- Offer a pair of EVA foam joystick protector covers that are compatible with the majority of FPV drone controllers.
- The shoulder strap can store a smartphone and accommodate a camera clip.
- The front sleeve stores the landing pad.
