

## PGYTECH Camera Wrist Strap

**ProdCode: PGYPCB125**

Camera Wrist Strap - Deep Grey

[\[Download Images\]](#) (.zip file)

### Features

- Camera Wrist Strap
- Using original quick connectors, the Camera Wrist Strap allows one-handed operation and works well with PGYTECH shoulder straps and backpack camera straps
- Microfiber material and inner protruding points make it snugly fit around your wrist
- The inside of the wrist strap is made of super tensile Dyneema, which has 15 times the tensile strength of steel
- The anodized aluminium alloy adjuster enables one-handed adjustment and drop protection
- Designed with a hidden magnetic clasp, you can also easily turn it into a bracelet
- Configured with a triangular clip to achieve a stable connection between the quick bead and camera
- Available in many colours, this wrist strap is stylish

**Original Quick Connector - Safe And Smooth Operation**

The quick connector utilizes a dead centre locking mechanism. There is no risk of the camera falling off, regardless of the angle of force applied, as long as the quick bead remains locked.

### **Strong Load-Bearing & Replace Warning**

Three-layer structure enables you to change the lanyard in time, thus ensuring your gear safety.

### **90KG Payload**

The abrasion-resistant lanyard is made of UHMWPE, which is ten times stronger than steel wire and can carry a load of up to 90 KG.

### **Skin-Friendly Microfiber For Both Sides**

Skin-friendly & Airy: Both inside and outside use soft microfiber, which features great water absorption performance, thus ensuring continuous breathability.

### **One-Handed Operation**

Anodized aluminium alloy adjuster enables effortless one-handed adjustment.

### **Accidental Drop Protection**

The strap will secure itself around your wrist when you accidentally drop your camera.

### **Tear-Resistant Dyneema® Fabric**

First developed by the Dutch company DSM, Dyneema® is a fibrous material made from ultra-high molecular weight polyethylene that combines lightness, strength and durability. It is 15 times stronger than steel and is suitable for a wide range of applications.

### **Hidden Magnetic Clasp**

By wrapping it around your wrist, you can turn it into a bracelet.
