

## PGYTECH Backpack Camera Strap

**ProdCode: PGYPCB126**

Backpack Camera strap with quick connect

[\[Download Images\]](#) (.zip file)

### Features

- Backpack Camera strap with quick connect
- 90KG Payload
- Quick Length Adjusters
- Easily Attach It To Different Backpacks

PGYTECH backpack camera strap is the perfect accessory for photographers who are always on the move as it can be attached to different backpacks through the end clip. With the original quick connectors, you can easily detach your camera from the strap whenever you need to take a shot. The PGYTECH backpack camera strap also works seamlessly with the PGYTECH camera wrist & shoulder straps, giving you even more flexibility in how you carry your gear. And quick adjusters make it easy to adjust the length to suit your needs.

Besides, PGYTECH backpack camera strap is configured with two triangular clips to achieve a stable connection between quick beads and cameras.

**Original Quick Connector - Safe And Smooth Operation**

The quick connector utilizes a dead centre locking mechanism. There is no risk of the camera falling off, regardless of the angle of force applied, as long as the quick bead remains locked. Also, the left and right quick connectors can be magnetically fixed to each other.

### **Strong Load-Bearing & Replace Warning**

Three-layer structure enables you to change the lanyard in time, thus ensuring your gear safety.

### **90KG Payload**

The abrasion-resistant lanyard is made of UHMWPE, which is ten times stronger than steel wire and can carry a load of up to 90 KG.

### **One-Piece Strong Webbing**

The high-strength webbing is simple in style yet robust in quality.

### **Easily Attach It To Different Backpacks**

The camera strap can be quickly attached to different backpacks through the end clip.

### **Quick Length Adjusters**

Quickly adjust the length and make it contour to your shapes.
