[Download Images] (.zip file)

Features

- Camera Backpack with 3D aluminium frame for better ergonomics and increased strength
- AceFrame™ Harness System
  - 3D Arch Aluminium Frame: Ergonomic design for back support and breathability
  - FreeFit Adjustment: Four-stage back length adjustment for different body shapes
  - Hollowed Shoulder and Waist Straps: Comfortable, breathable, and load-reducing
- Newly-developed HyperGuard material combines lightweight, durable CORDURA® fabric with high-performance PU coating. (CORDURA® is twice as durable as nylon, three times as polyester, ten times as cotton canvas.)
- Flexible expansion adds 10L capacity, with convenient top access
- The 180° lay-flat opening provides visible access and magnetic buckles ensure secure and reliable closure
- The custom buckles make camera insert bag easy to detach and be used as a

shoulder bag, or quickly switched to a platform for convenient equipment access
- OnePro cleverly combines the frame structure, mesh fabric and hollowed-out strap, reducing the overall weight by approximately 20% compared to traditional PP back panels +foam solutions
- The front compartment can store large items like tripod sliders
- The side quick access pocket allows for fast and easy retrieval of the camera
- The multiple internal pockets efficiently organize various equipment;The fordable storage compartment features a closable middle divider for flexible storage solutions; Dedicated battery pockets with power-indicators; The top pouch can store some fragile pieces
- Multifunctional shoulder straps: Right strap holds a water bottle; Left strap accommodates a camera quick release clip and other accessories;
- Waist strap storage: Provides space for phones, snacks, and other essentials, along with a camera quick release clip and carabiner attachment points
- Side pockets: Both sides can hold a tripod or a water bottle
- Comprehensive Attachment Points: Front-Can carry a large tripod; Side-Suitable for attaching trekking poles or ice axes; Bottom- Compatible with straps for securing sleeping bags, mats, and other items
- Comes wit a rain cover
- Comes with helmet fixing straps
- Splash-proof YKK zippers ensures durability and protection
- Anti-theft AirTag pocket

Summit-ready Harness

As the first camera backpack to incorporate a professional mountaineering harness system, OnePro Flex features the innovative AceFrame™, which offers unparalleled comfort

Stable Fit - Structural Expert

The 3D arch frame is made from 7000 series aerospace aluminium, ergonically designed to comform to your back for a stable carry.

Innovative HyperGuard Material - Tough and Splashproof

Introducing HyperGuard, crafted with a CORDURA® fabric base and high-performance PU coating. This material offers excellent abrasion, tear and splashproof resistance, making it lightweight yet durable for outdoor challenges.
