[\[Download Images\]](#) (.zip file)

Features

- All round pocket-sized vlogging tripod
- 7 modes to capture every angle of your life
 - Extended Mode
 - Lowered View Mode
 - Elevated Tripod Mode
 - Mantis Mode
 - Mobile Vlogging Mode
 - Vertical Shooting Mode
 - Handheld Mode
- Mantis mode lets you hang the tripod from any surface to capture every angle
- Instant and flexible. Handheld to tripod, portrait to landscape, dovetail cold shoe mount
- MantisPod Pro uses SnapLock mini reverse ball head, unlocking the omni-directional ball-head to easily switch to portrait shooting mode or 360° panning
- The SnapLock plate is mounted in one easy step. The patented SnapLock plate is Arca-Swiss compatible and contains a tight-fitting screw to avoid it getting undone like traditional quick-release plates often do

- The cold shoe mount on the side is compatible with lights, microphones and other accessories
- The built-in Mini-phone holder has an Arca-Swiss mount, cold shoe mount and 1/4 screw hole for wider compatibility
- It's made from lightweight yet sturdy magnesium

MantisPod Pro is versatile enough to meet all your vlog shooting needs. Extended mode, lowered view mode, elevated tripod mode, Mantis mode, mobile vlogging mode, vertical shooting mode, handheld mode and handle grip mode. These eight different modes free the creators from fussy set-ups involving lots of equipment. Mantis mode unlocks more creative angles. The instant and flexible adjustments between different modes and angles result in efficient shots. It's made from magnesium, which is lightweight and sturdy. MantisPod Pro uses the patented PGYTECH Quick Release System to make your camera setup more efficient. We got rid of the tedious traditional knob and created an Arca-Type Quick Release Plate that is mounted in one easy step. It even locks extra securely to offer increased safety. The Arca-Type Quick Release Plate is Arca-Swiss compatible and contains a tight-fitting screw to avoid it getting undone like traditional quick-release plates often do.

The built-in Mini-phone holder has an Arca-Swiss mount, cold shoe mount and 1/4 screw hole for wide compatibility. The Mini-phone holder is intuitive to operate and easy to carry because of its compact size. The cold shoe mount on the side is compatible with lights, microphones and accessories. The innovative design makes the MantisPod Pro portable yet multifunctional.

Multiple modes to capture your life from every angle

- **Elevated Tripod Mode**
Perfect for live-streaming, interviews, self-portraits and time-lapse photography. Just shoot and share your story.
- **Lowered View Mode**
The Lowered view tripod can mimic your pet's perspective.
- **Handheld Mode**
Handheld mode is perfect for on-the-go shoots. The angles at which it bends allow you to go from selfie mode to tripod mode instantly, without having to adjust your camera.
- **Extended Mode**
Unfold one leg with 140° to capture a natural portrait composition and more.
- **Mantis Mode**
The innovative mantis mode can become a stable tripod by using three different areas of support. Explore more perspectives and enjoy your creation.
- **Vertical Shooting Mode**
Swiftly switch horizontal to vertical shooting mode. Perfect for TikToks or live-

streaming.

- **Mobile Vlogging Mode**

There's a built-in detachable Mini-phone holder in one of the legs to allow you to shoot and instantly share your images via your phone.

Step Out of Your Creation Comfort Zone

The innovative mantis mode lets you hang the tripod from any surface to capture every angle. It replaces cumbersome tripods and helps you create interview angles, close-ups, detailed shots or any other such creative angle all on your own as if being trailed by a professional photographer.

Instant and flexible

- **Handheld to tripod**

Instantly switch from tripod to handheld without changing your camera's angle.

- **Portrait to landscape**

The adapter of MantisPod/ MantisPod Pro can rotate 360° to shoot from portrait to landscape mode.

- **Dovetail cold shoe mount**

Instantly change the plate's position. It's easy to set up and protects your camera from falling off.

- **PGYTECH Quick Release System**

MantisPod Pro uses the PGYTECH Quick Release System to make your camera setup more efficient. We got rid of the tedious traditional knob and created an Arca-Type Quick Release Plate that mounts in one easy step. It locks extra safely to make it even more secure. The Arca-Type Quick Release Plate is Arca-Swiss compatible and contains a tight fitting screw to avoid it coming undone like traditional quick-release plates often do.

Sturdy and durable, Light to carry

It's made of lightweight yet sturdy magnesium. It is durable and only weighs about 2/3 of aluminium alloy. Note: the three legs of the MantisPod are made from magnesium, the other parts are made from an aluminium alloy.

Portable, Comfortable Grip

Comfortable, ergonomic rubber handgrip, easy to carry around.

Cold Shoe Mount

The cold shoe mount on the side is compatible with lights, microphones, and other

accessories.

Built-in Detachable Mini Phone Holder

There's a built-in detachable Mini-phone holder in one of the legs to allow you to shoot and instantly share your images via your phone. It Includes a cold shoe mount for accessories. The Arca-Swiss mount and 1/4 screw hole are designed to be widely compatible.
