Features

- Vlogging Tripod suitable for all cameras, action cameras and mobile phones under 2kg
- Wireless control function
- 6 shooting modes can satisfy the diverse needs of Vloggers
- The innovative Mantis claw design makes MantisPod 2.0 clinch to glass, doors, trees, and railings effortlessly
- Instant switch between tripod and handheld and landscape/portrait view switch
- Ball head enables 360° panoramic rotation and 120° tilt adjustment
- PGYTECH Quick Release System, Arca-Swiss compatible and clamps/locks in one easy step
- Patented anti-loosening screw
- Rotatable cold shoe mount on the side

MantisPod 2.0 is an all-round tripod designed for vloggers. With Mantis Mode/High-angle Mode/Low-angle Mode/Handheld Mode/Briefcase Mode/Portrait Mode available, it can satisfy diverse shooting needs and enable flexible creation on the go. MantisPod

2.0 uses the PGYTECH Quick Release System, which is Arca-Swiss compatible and clamps/locks in only one easy step. The PGYTECH Quick Release Plate uses a patented anti-loosening screw containing a thrust needle roller bearing to ensure a sustained tight fit.

A Mini smartphone holder can be chosen and housed in the tripod leg for enhanced compactness and functionality, and the rotatable cold shoe on the side allows photographers to enhance their creativity by adding accessories like lights or microphones.

Love Mantis Mode at First Sight

The innovative Mantis claw design makes MantisPod 2.0 clinch to glass, doors, trees, and railings effortlessly, meeting vloggers' diverse shooting demands and easily recording close-ups and interview scenes. Mantis Mode will surely take your vlogging to the next level!

Stability as Priority

The Mantis claw is made of high-strength aluminium alloy material. The claw and the tripod form a three-point stable structure to ensure overall stability and safe mounting through leverage.

Note:

Mantis Mode can only be applied in the following situations:

The suspension board thickness should be less than 90mm, and the other two legs must be supported.

(Please avoid hanging it on moving vehicles, yachts, and other moving objects.)

6 Shooting Modes

- **High-angle Mode**
Perfect for live-streaming, interviews, self-portraits and time-lapse photography. Just shoot and share your story.
- **Low-angle Mode**
The low-angle mode is suitable for recording precious pet moments.
- **Handheld Mode**
Handheld mode is perfect for on-the-go shoots. The angles at which it bends allow you to go from handheld mode to tripod mode instantly, without having to adjust your camera.
- **Mantis Mode**
The Mantis claw is made of high-strength aluminium alloy. The claw and the tripod form a three-point stable structure to ensure overall stability and safe mounting through leverage.
- **Portrait Mode**

Swiftly switch from landscape to portrait view. Perfect for TikTok and live-streaming.

- **Briefcase Mode**

Briefcase mode is used for long-time tracking shots and you can capture the figure's movements in a relaxing way.

Wireless Control Function

The front leg is embedded with a magnetic remote control so that you can focus, zoom in/out, take pictures, and record videos without touching the camera.

The remote control can also be detached from the tripod and used separately for creative shooting.

Gives You All the Flexibility You Need

From Tripod to Handheld

Place it on the ground or just grip it to catch the desired shot.

Shoot from All Angles

- 360° panoramic rotation Ball head allows 360° panoramic shooting.
- 120° tilt adjustment By simply pushing the button, you can realize 120° tilt adjustment in seconds.

PGYTECH Quick Release System

The PGYTECH quick-release panel uses a patented anti-loosening screw and thrust needle roller bearing design to enhance the camera stability during your journey.

Rock-Solid Stability

The wide-range leg opening system and fibreglass toughened nylon material bring rock-solid stability with no compromises.

Easily Tucked Away

Weighing just 299g(without RC)/309g(with RC) and only 195mm / 7.68 inches in length when closed, MantisPod 2.0 can slip into and out of its storage pocket effortlessly.

Rotatable Cold Shoe Mount

The cold shoe mount on the side allows photographers to enhance their creativity by

adding accessories like lights or microphones.

Mini Smartphone Holder Can Be Stored Neatly

A Mini smartphone holder can be chosen and housed in the tripod leg for enhanced compactness and functionality.

(Mini smartphone holder not included.)

1/4" Screw On the Top

The 1/4" screw on the top makes it compatible with many devices.

PGYTECH Quick Release System

Photographers need to detach and mount quick-release plates frequently. However, most Arca-Swiss compatible quick-release tools still use the very inconvenient screw-turning method. That's why we designed the patented PGYTECH Quick Release System, which includes a plate and a clamp. It is Arca-Swiss compatible and clamps/locks in only one easy step. The PGYTECH Quick Release Plate uses a patented anti-loosening screw containing a thrust needle roller bearing to ensure a sustained tight fit.
