- Weight: 133g

Compatibility

- Windows 7 and above
- Mac OS 10 and above
- Linux
- Android
- iPad OS

Made specially for photographers, this product doubles as a high-speed card reader and a memory card case.

As a card case, it can accommodate two Nano SIM cards, four SD cards, four TF cards, and an eject pin.

As a card reader, it has a built-in USB 3.1 chip and the transmission speed can reach 312MB/S. It also features SD/TF dual-slot data transfer. The Type-C interface makes it compatible with Type-C smartphones and tablets.

Besides, this card case slips in and out smoothly and is made of aluminium-alloy. Configured with a rubber case, it can achieve IP54 protection.

Not Only A Card Reader But Also A Card Case

Effortlessly carry, store, read, and change memory cards on the go, this product is the perfect companion for photographers who demand both efficiency and convenience.

Experience Data Transfer At Warp Speed

- With a built-in USB 3.1 chip, it features a transmission speed of 312MB/S.
(*Data based on internal testing; Actual performance may be a little bit lower due to variations in devices, interfaces, memory cards, file attributes, usage circumstances, etc.)
- SD and TF dual card slots

* Can support reading UHS-II, compatible with UHS-I and non-UHS SD and Micro SD (TF) memory cards.

Instantly Share Sharp Videos With The World

This plug-and-play card reader case works well with Type-C smartphones and Pads (no need to install APP), thus bridging the gap from card to screen in seconds.

Note: Only applies to Type-C port phones and tablets that support OTG.

A Range Of Slots Leave No Card Behind

- Can accommodate 8 memory cards and 2 Nano SIM cards
4x SD | 4x TF | 2x Nano SIM

IP54 Protection Greatly Resists Drop, Dirt And Splash

- Aluminium-alloy shaped at one go.
- Slides out smoothly and easily.
- Sealing ring to keep dirt and splash out.
- Silicone case provides fall & shock protection.

- Carabiner clip allows easy carry.

Eject Pin Included

Easily remove memory cards from devices without risking damage to the card using the included Eject Pin.
