- Hidden back storage
- Wrist Strap

Photography gloves are designed for outdoor sports, cold zone shooting or drone flying in different conditions, with good appearance and high-grade quality. The mitten design offers you a better shooting experience, while the finger caps work well with the touchscreen. PGYTECH photography gloves are featuring with its waterproof, breathable HIPORA liner and cold-proof 3M Thinsulate quality cotton. PU anti-slip

palm and soft inner lining make the gloves light, flexible and thermal.

Extremely warm yet lightweight

PGYTECH's 3M Thinsulate gloves are made with quality cotton to ensure you won't get cold during winter while simultaneously allowing you to maintain full finger flexibility.

Quality materials to keep you dry

We chose quality materials to keep you warm and comfortable. The gloves have a HIPORA lining which is breathable and windproof. The outer part is water resistant allowing you to shoot no matter how cold your surroundings are.

High-quality fabric

- Waterproof layer
- Windproof layer
- HIPORA windproof and breathable liner
- 3M Thinsulate Cotton
- Soft lining

Breathable, water-repellent layer

High-density polyester fabric to ensure your hands won't get wet on rainy/snow days.

Windproof membrane

Block the rapid airflow to maintain heat.

HIPORA liner

Windproof and breathable, it can discharge moisture and sweat.

3M Thinsulate Cotton

Cold-proof maintains heat; the thermal performance is 1.5 times better than down feather, and five times better than chemical fibre.

Fingerless glove and mitten in one& Maximize dexterity

No worries about cumbersome gloves that prevent you from operating your gear with our smart 3-finger cutout. Setup, shoot, and even control your drone without having to

take off your gloves.

Touchscreen compatible

The sensory fingertips allow you to operate the touchscreen with your gloves on so you'll never have to miss a telephone call.

A good grip

The anti-slip palm offers you a perfect grip.

Smart design

Finger cutouts allow you to operate touchscreens or other things requiring finger flexibility. Adjustable wrist strap to block out any wind or rain. Buckle gives you extra security when storing your gloves.
