Features

- CapLock Action Camera Extension Pole Tripod
- 2-in-1 design: Tripod + selfie stick for versatile use
- Quick-release design for easy and convenient setup
- Dual-locking mechanism for stability and reliability
- Non-slip textured rubber handle for a comfortable grip
- Magnetic tripod legs for swift folding and portability
- With a cold shoe interface for accessory mounting
- Lightweight and compact for easy carrying
- Extendable length (up to 47cm when extended, 18cm when collapsed)

PGYTECH CapLock Action Camera Extension Pole Tripod is a versatile accessory designed to meet various photography needs, including selfies, time-lapses, and more. It seamlessly combines the functions of a tripod and a selfie stick, allowing easy switching between the two modes. Featuring the CapLock System, it is compatible with action cameras and smartphones through standard and 1/4 quick-release plates. The soft rubber handle ensures a comfortable and non-slip grip. The tripod has a magnetic

design for quick folding, making it convenient to carry around. The 4-section extendable arm is up to 47cm and collapsed to a compact 18cm for easy portability.

Not Only A Selfie Stick But Also A Tripod

Use as a selfie stick, or fold out the built-in tripod to unleash more creative shooting angles.

•→ Magnetic Leg Base Legs can be folded down to create a handle with a comfortable grip in seconds.

Strength and Toughness Combined In One

With a thrust force of 7.5 kg, this ball head highlights a strong clamping force and can bear a load of 1kg, thus it can hold most smartphones, mirror-less cameras and action cameras.

- The rubber base at the bottom helps to stabilize the tripod.
- Aluminum-alloy selfie stick allows stable recording and avoids image blur.

4-Section Extendable Selfie Stick

The 4-section stick can retract to a handy 18cm (7.09in) and extend to the lengthy 47cm (18.5in), making ultra-wide-angle shooting and multiple self-portraits easy-peasy.

Panoramic Ball Head

The ball head brings total pan-and-tilt flexibility. (Ball head tilts 55° on one side, with reserved notch for portrait shooting.)

Play Nice With Other Gear

The universal interface allows immersive creation and makes you shoot like a pro.

- The cold shoe mount on the side can attach a light, mic or other accessories.
- Including an action camera adapter and a 1/4" adapter, it works well with action cameras and smartphones. (A phone clamp is needed when used with a smartphone)

Light and Portable

Fold down to the length of your hand, the 18cm-long tripod is easy to carry. The non-slip rubber texture brings a better hand feel.
