## Features

- Camera Holder with Magnetic Mount
- Magnetic adsorption, stable, and reliable
- Adjustable dual-ball head design allows for 360° adjustment
- Multiple interfaces, wide compatibility
- Foldable and compact, easy to carry and store
- Quick and convenient assembly and disassembly
- Security lock ensures stability and reliability
- High-strength aluminium alloy
- Dimensions: 138mm x 64mm
- Weight: 196g
- Load Bearing: 300g
- Working Temperature: -10°C to 40°C.
- Compatibility: Insta360/GoPro action cameras/DJI action cameras like Osmo Pocket series/Smartphones(a smartphone clamp is needed)

The CapLock Action Camera Magnetic Mount is used for mounting action cameras and smartphones for creative shooting on metallic surfaces like vehicles, railings and

fridges. Dual ball head construction features 360° tilting and rotating capabilities, effortlessly adjusted via a wingnut. The quick-release mechanism and security lock ensure a secure and stable installation. Foldable and compact, it is designed for effortless portability and storage. And with its action camera adapter and 1/4" adapter, it offers broad compatibility with action cameras and smartphones.

## **Explore Varied Scenarios**

Effortlessly secure your action cameras and smartphones onto car bodies, railings and refrigerators. Compact enough to fit in a bag.

## **Strong Magnetic Attachment**

Crafted with a robust magnetic base, it can stand a load of 300g. Tests show it remains securely attached to metal surfaces even during prolonged periods of high-frequency vibrations. Combined with the aluminium alloy magic arm, it ensures secure filming.

## **360° Panoramic View**

The dual-ball magic arm provides a complete panoramic view with a single locking wingnut for rapid adjustments.

## **Wide Compatibility**

Including an action camera adapter and a 1/4" adapter, it works well with action cameras and smartphones. (A phone clamp is needed when used with a smartphone)

## **Warning:**

When used on vehicles, please make sure the moving speed is less than 80km/h and choose flat roads.

It is strongly recommended to use a safety lanyard to prevent accidents.
