Scanner for large-scale painting and textured artwork

- **Acceptable Paper Size**

Scan up to 12" x 17" (A3) size; digitize your artwork, painting and stereoscopic objects. It is the easiest way to ensure that you get the vibrant reproduction of colours in varies type of art.

- **Toshiba 2905 CCD Image Sensor**

Compared with CIS, CCD brings you better image quality and higher sensitivity, especially suitable for scanning object which can't lay completed flat on the surface.

- **Scan A3 Colour and Black&White in 7.8 Sec**

Scan A3 Colour and Black&White in 7.8 Sec Significantly easiest and effortless artwork digitization from paper-based to electronic format, generate absolute fine and precise image in just 7.8 seconds.

*300 dpi, A3, Colour / black&white / Gray @7.8 Seconds

- **Scan and Edit directly to 3rd party software**

We will send the images directly to other software after scanning for more editing function.

By selecting "Scan Utility", the image will be sent to 3rd party software after scanning, such as Photoshop or Paint automatically.

- **Stereoscopic Image Details**

The A320E is built with a CCD sensor, which offers a higher depth of field compared to CIS sensors. This means scan results remain clear even when the object is not in direct contact with the glass surface — a level of detail only achievable with CCD technology.

For instance, the stacked strokes of oil paintings, the texture of fabric and paper, and even architectural carvings can be beautifully captured and presented.

- **Built-in OCR- export to editable file format**

Not only is the great performance of image detail, A320E capable of convert files from paper-based into Excel, Word or searchable PDF format.

Customizable Button Scanning brings you the most efficient way to scan artworks

- OCR Button : Convert files into Word, searchable PDF or Excel
