Features

- 3x Move SE 20x | 1x PT-JOY-G4
- Easy Setup
- PoE-Ready
- 1080p 4K Resolution
- Seamless Integration

Your Next Chapter in Video Production Begins Here

Dive into the PTZOptics Producer bundles, our easy to setup systems, tailored for every production aspiration. Choose from the 1080p resolution Producer-SE or elevate your vision with the 4K-ready Producer-4K. Each bundle is 100% PoE-ready for easy setup and breakdown or permanent installation. Share your vision with a trio of 20X PTZ cameras, ensuring close-up shots even from afar.

1080p Excellence

With 3 award-winning 20X Move SE cameras, the Producer-SE bundle delivers

precision in every shot, even from a distance. Enjoy 1080p clarity, bringing lifelike quality to every frame along with convenient auto-tracking capabilities. Plus, streamline your setup process with the included PT-JOY-G4 IP/serial connected joystick controller. Seamlessly integrate, manage multiple settings, and enjoy intuitive control for a budget-friendly price. Offering an array of outputs, from SDI to HDMI, USB, NDI® HX2, and IP, the Move SE cameras are the epitome of versatility and excellence.

Designed with the Future in Mind

Experience a more intelligent video production workflow with the Move 4K and SE's updated web user interface. The Move cameras offer built-in auto-tracking capabilities — no need to run software on another computer. Plus, PTZOptics' one-click firmware updates from the web UI make it easy to future-proof your investment, with new capabilities continuing to come online as the platform evolves over time. With SDI, HDMI, USB, and IP output options, plus PoE, the Move 4K and SE can fit seamlessly into any production scenario.

Easy Integration into Existing Production Systems

Users can control Move SE and Move 4K cameras using video production software such as OBS, Livestream Studio, Wirecast, vMix, mimoLive or Tricaster — or use the included hardware joystick controller, the PT-JOY-G4. Users can also live stream directly to content delivery networks such as Facebook and Youtube. The options for camera control are endless, allowing you to take charge of your camera in a way that fits your workflow.

PTZOptics CMP: Multiple Cameras, One Simple Solution

No matter how many cameras are deployed, the new PTZOptics Camera Management Platform, included in both Producer Bundles, allows users to manage multiple cameras at once. In-app tools like color correction can help easily change the look of one or multiple cameras on the fly. The PTZOptics Camera Management Platform is compatible with any desktop operating system—Windows, macOS, and Linux—and fits easily into any workflow using OBS, vMix, and other video production software.

In the box:

- 3x PT20X-SE-20x-G3 Cameras
- 1x PT-JOY-G4 Joystick
