20x Optical Zoom, fixed lens camera with built-in mic and tally light - Grey

[\[Download Images\]](#) (.zip file)

### Features

- Fixed lens camera with built-in mic and tally light
- 4K@60fps Resolution
- 12x or 20x Optical Zoom
- Compact & Modern Fixed Design
- Hive-Linked for One-Click Integration
- SDI, HDMI, USB, and IP Outputs with NDI® HX2

### Fixed Camera, Unmatched 4K Video

Whether as a standalone camera or an addition to a larger studio setup, PTZOptics' Studio 4K provides crystal-clear 4K resolution, 12X or 20X zoom and conveniently Hive-Linked™ to our easy-to-use online platform, Hive Studio, delivering future-ready connectivity and control from anywhere.

### Connect, Point, Produce!

The Studio 4K features SDI, HDMI, USB, and IP output and comes native with NDI®

HX2, allowing for seamless integration into various video production setups, connecting directly to a live production switcher, streaming over a network, or recording through an SDI interface. Built-in connectivity links to Hive Studio automatically!

## **Zoom In with Power and Endurance**

The Studio 4K is your perfect entry into the world of 4K videography, offering powerful zoom capabilities and reliable performance. Capture a head-and-shoulders shot of your subject from up to 90 feet away with zoom strengths of 12X or 20X, ideal for medium or large spaces. Designed for utility and endurance, its unobtrusive design, continuous operation, and a variety of mounting options, the Studio 4K will be your new video system workhorse.

## **A Multitude of Applications**

The Studio 4K is the perfect companion to a Move SE or Move 4K multi-camera setup, enhancing your production capabilities with an additional fixed-camera option that complements your PTZ cameras. The Studio 4K's high-quality construction and discreet profile makes it the perfect choice for streaming municipal meetings, worship services, sports, and security applications. In addition, as a fixed camera the Studio 4K is courtroom friendly.

## **Future-Friendly Performance**

To accommodate ever-evolving productions, the Studio 4K is Hive-Linked, PTZOptics proprietary built-in automatic connection to Hive Studio, allowing centralized multi-camera control & management from anywhere within the comfort of a web browser. With just a few clicks, you'll have centralized management of all your cameras from anywhere with just a web connection, enabling controlling and configuring multiple cameras from a single interface—no need for complex multi-software setups.

## **Free Software for PTZOptics Users**

PTZOptics cameras are compatible with a wide range of free software solutions, including:

- Camera Management Platform (CMP) for camera management, control, color correction, auto-tracking
- Control apps for desktop and mobile devices
- Plugins and integrations for popular platforms, including OBS
- Camera configuration and management tools
- Support and testing utilities

- And more!

## Unrivalled Warranties

With robust warranties included standard on every product, you can trust PTZOptics solutions to deliver high performance from day one, and for many years to follow.

The Studio 4K comes with a 5-year limited parts and labour warranty. PTZOptics stands by our promise to protect your investment by providing repairs or replacement products for the duration of your warranty.
