

Roland CS-10EM

ProdCode: ROLCS10EM

Binaural Microphones/Earphones

[\[Download Images\] \(.zip file\)](#)

Features

TWO FUNCTIONS IN ONE

The CS-10EM provides combined in-ear monitoring and binaural recording, enhancing the convenience and enjoyment of field recording — a great companion for the Roland R-05, R-09HR, and R-07 field recorders. Simply wear the microphone-equipped earphones and capture what you hear, then listen back instantly. You can enjoy realistic sound as if you were there. You can also monitor while recording thanks to the CS-10EM's all-in-one design.

- Binaural Microphones/Earphones
- Compact, high-quality stereo condenser microphones built into earphones
- Powered by the recorder (operating voltage is 2V to 10V; also works with other products)
- All-in-one design lets you monitor while recording
- Sophisticated enclosure design reduces feedback

Need Further Support?
