ProdCode: SAMYANG7935

Compact, lightweight autofocus ultra wide angle prime lens - Canon RF-S

[\[Download Images\]](#) (.zip file)

Features

- Compact, lightweight autofocus ultra wide angle prime lens - Canon RF-S
- Tailored specifically for Canon RF-S cameras
- Bright F2 Aperture
- Fast and Quite Auto Focus

The AF 12mm F2 RF-S is an ultra wide angle prime lens that is versatile for various photography styles, including landscape, architecture, astrophotography and travel. This lens provides a dynamic and immersive shooting experience with its expansive field of view, while the bright aperture ensures stunning clarity even in low light conditions. It is designed to harmonize beautifully with your camera body and weighs just 213g, making it lightweight and incredibly portable an ideal companion for all your photographic adventures.

Exceptional Resolution

The AF 12mm F2 RF-S offers exceptional sharpness from corner to corner, making it a standout choice for photographers. With three extra low dispersion (3 ED) elements

and two aspherical lenses (1 H ASP, 1 ASP), this lens effectively eliminates chromatic aberration, distortion, and sagittal coma.

Perfect for capturing breathtaking nightscapes, it ensures every detail shines beautifully.

Bright F2 Aperture for Outstanding Image Expression

The large aperture of F2 enables clear image expression even in challenging low light conditions.

The shallow depth of field effectively separates the subject from the background, while the minimum focus distance of 0.2 meters allows for more dynamic image capture.

This lens enhances your creative possibilities by providing a more pronounced background blur, along with a beautiful starburst effect created by the seven aperture blades.

Fast and Quite Auto Focus

Equipped with a Samyang Linear STM (stepping motor), this lens offers impressive autofocus performance that is both silent and precise. You can effortlessly track your subject with speed and accuracy, ensuring you capture every unforgettable moment with ease.

Convenient Features and Premium Design

This lens is compact and lightweight, measuring 57.2mm in length and weighing 213g, making it easy to carry for outdoor photography. It also offers excellent compatibility with tripods and gimbals, providing flexibility in your shooting setup. The lens boasts a sleek matte finish with an eye-catching red ring that enhances its aesthetic appeal when paired with your camera. Plus, the convenient AF/MF switch on the side allows you to effortlessly transition between autofocus and manual focus, adapting to any shooting scenario. Furthermore, the weather sealing protects the lens from light rain, snow and dust
