

## Shure MoveMic One

**ProdCode: SHUMOVEMIC1**

Single-Channel Wireless Lavalier Microphone

[\[Download Images\]](#) (.zip file)

### Features

- Single-Channel Wireless Lavalier Microphone
- Single-channel wireless microphone for mobile that pairs directly with your iOS or Android device using the Shure MOTIV video or audio apps
- Carefully designed to be as small and discreet as possible
- Created by the same Shure team behind the professional wireless microphone systems used by the world's™ leading artists, venues and festivals.
- 24 hours of recording on the go: MoveMic lavaliers provide eight hours of battery life within the microphone, with an additional two full charges ready in the convenient carrying case
- MoveMic One offers instant setup and connectivity, enabling you to record in seconds without missing a beat
- Realize the potential of receiver-free wireless, with one channel of high-quality audio transmitted directly to your phone
- Utilizing a custom acoustic design and proprietary wireless software, MoveMic achieves broadcast-quality audio quality beyond traditional mobile devices
- The free ShurePlus MOTIV apps allow you to customize your audio and video settings for optimal recording. Configure gain, limiter, EQ, compression, noise

reduction and record within the apps

- Add the MoveMic Receiver (sold separately) for added compatibility with DSLR and mirrorless cameras, computers, as well as popular third-party mobile apps
- Rated IPX4, MoveMic One is designed to withstand rain, spills and splashes, ensuring your content is not limited by environmental conditions

MoveMic One is a single-channel wireless clip-on microphone for mobile content creators, videographers and journalists. Pairing directly to your smartphone and providing up to 24 hours of recording on the go, this modern take on the lavalier combines a compact form factor with speedy setup and superb audio quality. A powerful yet portable wireless microphone for mobile creators, MoveMic One is ready to help you capture the next big thing. Need two channels of audio? Check out MoveMic Two.

## **BUILT FOR BROADCAST QUALITY**

Shure engineers tapped decades of wireless knowhow to build the best audio experience possible. Using a custom acoustic design and proprietary wireless software, MoveMic takes cable-free recording to new levels of broadcast quality.

MoveMic One allows you to record professional audio directly to your mobile device with the Shure MOTIV Video and Audio apps. Built with a custom internal acoustic design using a proprietary wireless software, it surpasses traditional mobile device audio quality. Shure engineers distilled decades of experience both onstage and in the studio to bring this tiny yet mighty microphone to you.

- **Twice the Sound. Half the Size**

The MoveMic lavalier microphone is portable yet powerful: Its discreet design eliminates bulky distractions while delivering superb audio every time.

- **Once Paired, Always Ready**

MoveMic is ready to record in an instant: Install the MOTIV apps, pair your smartphone and you're all set. MoveMic will automatically reconnect.

- **Custom Acoustics. Unmistakably Shure**

MoveMic leverages a custom acoustic design and proprietary wireless software to make your content sound better than ever.

- **No Receiver Required**

MoveMic makes recording easy by connecting directly to your smartphone without a receiver. Just download the MOTIV app and you're all set.

At the heart of MoveMic's superior performance lies the unwavering attention to audio quality and performance.

MoveMic harnesses nearly 100 years of audio excellence at Shure to deliver mobile

wireless sound like youâ€™ve never heard before.

A custom acoustic design and proprietary wireless software enable broadcast-quality audio exceeding the capabilities of traditional mobile devices.

With MoveMic, every note is crisp, every voice is clear, and every moment is captured with unparalleled audio fidelity.

### **In the box:**
