Spring loaded accessory hook capable of suspending a weight

The SLIK new PRO AL-500 series medium size tripod are capable of handling the weight of a professional full-frame DSLRs or mirrorless cameras with heavy lenses. It can handle up to 6.0kgs of equipment yet it keeps itself light in case the tripod needs to be moved around. It offers professional photographers and advanced amateurs the

strength and stability they need. SLIK's exclusive AMT alloy legs make the PRO AL-523 tripods rock steady yet lighter than it looks.

The PRO AL-523 is a successor model of the best-selling PRO 500DX Leg. The new series reduce vibration and increase the torsion strength through a re-engineered tripod collar and leg joint.

The new series features SLIK original RFM (Rappid Flip Mechanism) that provides an easy way to adjust the leg angle, a bubble level for easy horizon correction and an accessory hole that will accept your choice of extension arms for mounting monitors, lights tablets or other photographic accessories.
