

SLIK Leveling Unit 2

ProdCode: SLI3468

Tripod head and legs leveling adapter

[\[Download Images\]](#) (.zip file)

Features

- Tripod head and legs leveling adapter
- **Rotary Locking Ring**
Rotary locking mechanism that can be accessed to it from any direction. It is a useful feature when attached to the platform which cannot adjust the attaching position like the camera slider. Simply screw it in and ready to go.
- **Low profile & simple design**
The low profile body connects the tripod and the head in a stable way, and simple & concentric design does not interfere the shooting.
- **Fluid mechanism**
The built-in fluid mechanism provides the adequate amount of damping force to prevent the camera from suddenly tilting when unlocked, and allowing smooth and precise leveling in any direction.

The Leveling Unit 2 is an all-metal leveling adapter intended for use with tripod heads and legs. The base allows you to accurately level any head or camera within a $\pm 7.5^\circ$ range of movement. It also locks easily via a knurled silver control ring. The base's sturdy build supports up to 10kg while weighing a portable 200g.

It features a 1/4"-20 top thread and a 3/8"-16 bottom thread, both used with an adapter bushing to attain the required fitting. The base also features a single circular spirit level for making easy and precise adjustments.

This adapter is perfect for quick adjustment to level the tripod head.
