

SLIK SBH-180DS

ProdCode: SLI3487

Ball head with arca swiss quick release plate

[\[Download Images\]](#) (.zip file)

Features

The SBH-180DS is a compact ball head with an Acra-Swiss compatible quick release system. The ball head is currently available with the LiTE series CF-422 and CF-522 tripod kits as well as being available separately. To mount on a tripod the head has a U3/8 tripod mount with a U1/4-20 reducer for either sized tripod mount threads. This durable, simple-to-use ball head has a single lever to lock and release the ball for repositioning of the camera and a small, low-profile quick release plate that can be left on the camera at all times so it's always ready. With a maximum capacity of 3kg the SBH-180DS was designed for light-weight DSLRs and mirrorless cameras.

- Ball head with arca swiss quick release plate
- **ARCA-SWISS compatible**
Precision ball head SBH-180DS with ARCA-SWISS compatible quick release shoe
