A safety design that allows you to attach and detach the camera by pressing the lock release button
- **Illuminated Level**
Equipped with an illuminated level that allows you to adjust the horizon level in low light conditions
- **Lightweight**
Lightweight single-pipe legs ensure mobility while still supporting a maximum load of 10kg
- **Carry Case**

complete with a dedicated carry case

The DVS-SA753PTZ tripod is designed specifically for PTZ cameras and combines mobility with ease of use.

The DAIWA DVS-SA753PTZ tripod includes a quick release unit that makes it quick and easy to attach and detach a PTZ camera.

The single-pipe three section tripod legs allow high mobility. They can be set to three different angles and can also be extended in three stages, allowing for stable setup on uneven surfaces.

The low-profile ball lock knob allows a minimum working height of 21cm and with fully extended legs the maximum height is 142.5cm.

The 75mm ball makes it easy to adjust the level of the quick release unit which is equipped with an illuminated bubble level to check horizons in low light.

In the box:

- Tripod Legs
- Quick release base
