- 50mm objective lens
- Operating temperature from -20°C to +70°C
- Water-repellent, non-slip rubber armouring
- Field of view at 1000m - 128m
- Dimensions (WxHxD) 208x140.5x70mm

The new Navigator takes STEINER's popular Marine series into a new generation with innovative product features. Handling is dramatically improved thanks to the new "Open-Bridge-System", while the texturing on the body allows for comfortable and strong grip in any situation. The STEINER 'Auto-Focus' optics guarantee always-sharp images, even while handling the product with one hand.

Each model inherits Steiner's legendary ruggedness. They are nitrogen pressure-filled (anti-fog) and waterproof to 5m, making them reliable under the most adverse weather conditions.

This model is equipped with 50mm objective lenses and 7x magnification which provides a steady view in rough seas, with a bright image guaranteed and excellent contrast and sharp detail, even in near-darkness.

These are Professional binoculars for those who take their activities on the water seriously. Sharp images, absolute reliability and unmatched handling; all the features and advantages which Steiner marine binoculars are known for.

In the box:

- Binoculars
