CFexpress 4.0 Type A Card - 512GB

[\[Download Images\]](#) (.zip file)

### Features

Engineered for Sony Alpha and FX lines, CFX4-A series unlocks the full potential of the cameras, supporting all video codecs including the slow-and-quick modes in finest HD / 4K in XAVC S-I format which requires up to 890 and 1200 Mbps respectively.

- **Designed for Alphas**  
We know the strenuous demands required for working professionals in the field. We got you covered.
- **Max Speeds of Up To 1865 MB/S Read and 1750 MB/S Write**  
Burst speed for read and write are more than 6 times faster than the best SD UHS-II media, leveraging the maximum performance of the camera.
- **Built for 8K Pro Photo & Video**  
Captures detailed, high-definition frames without drop off in performance as the capacity gets used by steady sustained write speed.
- **Non-Stop Recording Time**  
The large capacities up to 1TB provide ample space for RAW footage. Creators are able to store more content non-stop in harsh and unforgiving environments.
- **Ultimate Durability**

Wise CFexpress Type A cards are protected against moisture, dust, X-ray, magnets and shock.
