Features

- Portable and Versatile Streaming Hardware Encoder
- **Go Live in 1080/60**
Anybody can stream live online, but not everyone can make it professional. Bring your live productions to the next level with broadcast-quality 1080p60 video
- **Stream to Multiple Destinations**
Distribute your content to more viewers and streamline your workflow by simultaneously streaming to your favorite platforms, including Facebook, Youtube, Twitch or others through RTMP
- **Graphic Overlays**
Make your video productions stand out by adding custom scoreboards, text, logos, countdown timer and more. Creating proper stream graphics helps you convey your brand and keep your audiences engaged
- **Monitor Mode**
Utilize the device even when you are not live streaming. Record, switch, add overlays and transitions to level up your video production efficiency
- **4G LTE Support**

Stream over all available networks from Ethernet, WiFi, 4G LTE modems and hotspots. Making sure you can always live stream with confidence even if you're out with no Ethernet or WiFi around

Mini, Mobile, Mighty

YoloBox Mini is a super portable live streaming encoder, monitor and recorder that is capable of incorporating many powerful features for high end work! As the name suggests, it's very small compared to almost all other live-streaming solutions. You can fit it in your pocket, especially perfect for live events that require high mobility. If you're looking for a mini but mighty live streaming solution for mobile live streaming needs, YoloBox Mini is your best choice.

Why YoloBox Mini

Small in size, big in capabilities.

- **LIVE STREAM WHEREVER YOU GO**

The compact encoder, monitor and recorder for live streaming on-the-go. A small-sized, cost-effective reliable h.264 encoder for transmitting high-quality video from anywhere.

- **START STREAMING WITHIN SECONDS**

A user-friendly live streaming solution that makes it accessible to people of all skill levels. Just plug in your camera and go live at the tap of a button. No need for a large crew or technical streaming expertise.

- **DELIVER ROCK-SOLID RELIABLE VIDEOS**

By gauging all available signals, including cellular, WiFi and Ethernet to connect to the most reliable network, and deliver the most compelling live productions at only a fraction of the cost of traditional live streaming methods.

- **PORTABLE, AFFORDABLE & RELIABLE**

If you're considering a portable live streaming system, YoloBox Mini is the most economical solution, offering incredible value and professional capabilities. By inheriting all the functionalities implemented on all other YoloLiv products, it helps you get started in a professional and affordable manner.

- **BEST FOR ONE-MAN CREW**

With its quick setup and simple interface, YoloBox Mini makes it easier for people to get up and running saving hours of setup and teardown time. That makes it a perfect option for live streaming when it comes to a one-man crew.
